

# FITC-Linked Anti-Ubiquitin Carboxyl Terminal Hydrolase L1 (UCHL1) Monoclonal Antibody

**Catalog No:** FY-AB54088

**Organism Species:** Homo sapiens (Human)

**Application:** Flow cytometry.

**Alternative Names:** PARK5; PGP9.5; Uch-L1; Neuron cytoplasmic protein 9.5; Ubiquitin thioesterase L1; Ubiquitin carboxyl-terminal hydrolase isozyme L1

## PROPERTIES

Source	-
Host species	293F
Cross Reactivity	-
Purification	Protein A+G
Research Area	Enzyme & Kinase;
Appearance	Liquid
Size	50test;1mg/mL
Formulation	0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol.
Immunogen	-
Application	For flow cytometry, the suggested use of this reagent is 1-5 $\mu$ l per $10^6$ cells in 100 $\mu$ l volume.
	Optimal working dilutions could be determined by end user.
Storage instructions	Stable for 12 months. at -20°C from date of shipment. Aliquot to avoid repeated freezing and thawing. Store at 2-8°C for frequent use. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap.
Stability Test	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
